

Toy Library Helpful Hints

- Set up in an area free from your own child's toys.
- Explain to your child that this is a special toy on loan from the toy library. And it needs to be looked after with special care.
- Ask them not to take pieces outside the room, especially outside the house.
- Keep younger children away from train set as there are choke able pieces in this set.
- Toddlers tend to pick up pieces and stash them in the most unlikely places.
- When not in use shut door to room or pack away.
- Upon return, please do a count and check of set the night before, to ensure all pieces are present.
- This prevents a stressful hunt for pieces in the morning and searching for lost pieces.
- Please have toys returned on date due as others children may be eagerly waiting for the toy.
- Toys also need to be cleaned.

Thank you very much for your co-operation and understanding and helping us keep this voluntary organization successful!
